

COTURRI WINERY

FACT SHEET

NATURAL WINES

PIONEERING ORGANIC WINEGROWING IN CALIFORNIA FOR 25 YEARS

"These are some of the most intriguing, albeit controversial, wines I have ever reviewed. ...But if wine is meant to be appreciated for its individuality, as well as for pleasure, then who cannot admire what this winery has achieved."

Robert Parker, Jr.

Harry "Red" Coturri
(1917-1997) - Founder

Founded

July 1979

Testa Vineyards – Mendocino County

Hoaglund Vineyards – Sonoma Valley

Views Land Vineyards – Sonoma Valley

Varietals Produced

Zinfandel, Cabernet Sauvignon, Merlot

Pinot Noir, Syrah, Carignane, Sangiovese

Viticultural Methods

Phil Coturri also owns and operates Enterprise Vineyards, the largest organic vineyard management company in Sonoma Valley with over 375 acres certified by the CCOF. Phil farms 90% of the grapes sourced by Coturri Winery – all organically - without the use of synthetic fertilizers, herbicides, pesticides, and fungicides.

Winemaking Process

The only ingredient in Coturri wine is grapes – natural yeasts spontaneously carry out the fermentation – no water or acids are added – no chemical manipulations or preservatives such as sulfites are used. Tony Coturri is a third generation winemaker and has been making wine this way since 1964. His son Nic is now apprenticing in the same methods and traditions.
